

## Thin Coats

Since a Yankee inventor put the old time sewing circle into one machine there's been rascality in ready-made clothes—the work not always coming up to the standard of reliability maintained by the family dress maker. But man's ingenuity has improved on How's invention till it equals the work of human hands. These silk coats possess all the virtues of made-to order garments at prices of ordinary ready-made. Prices \$2.75 to \$20.

An unlined silk taffeta jacket, made in the loose box back style and with Gibson shoulders, collar and cuffs trimmed with silk braid. A very convenient garment for all the summer wear, and, considering the style, workmanship and quality of silk, this is an excellent value

A three-quarters length black silk taffeta coat made with the popular Gibson shoulder and neatly trimmed with silk braid. A splendid light weight coat for all around wear, and at a price that is within reach of all. And made as you would make it yourself. Price
